S-Series

▶ Quality

S-Series is an exclusive, extremely competitively-priced brand of cone liners and jaw dies from KPI-JCI and Astec Mobile Screens that has been developed as part of our commitment to producers and their bottom lines. Designed by Astec Industries foundry experts who specialize in metallurgy and manufacturing engineering, our S-Series line provides producers with the highest quality of parts that can only be found through KPI-JCI and Astec Mobile Screens.

▶ Performance

Results proven through extensive testing by customers in the field show S-Series parts perform at least 16 percent better than other leading, brand-name jaw and cone manganese liners. Anyone who desires a competitively-priced, high-quality product that has the backing of an OEM, not a third-party supplier, will benefit from S-Series parts. We are confident in the quality of our products, which is why we guarantee all of our parts with a 6-month, 1,000-hour warranty.

▶ Availability

S-Series parts are stocked at the factory, allowing for immediate availability in most cases. A flexible bulk ordering program for container load shipments is offered to help ensure on-site availability 24/7. Producers should consult with their local dealer to analyze their operation's wear parts needs, plan ahead and pre-order parts to eliminate unnecessary downtime and save money.

Nothing in this advertisement should be taken as a claim that Kolberg-Pioneer, Inc., Johnson Crushers International, Inc. or Astec Mobile Screens (KPI-JCI-AMS) are affiliated with, sponsored by or licensed by Terex Corporation and Cedarapids, Inc., manufacturers of CEDARAPIDS® and PEGSON® products. CEDARAPIDS® is a trademark of Terex USA, LLC and/or Terex Corporation and PEGSON® is a trademark of Terex GB, LLC of Northern Ireland. Other names or designations for items of equipment described herein or offered for sale under our S-Series product line may be considered to be trademarks of the manufacturers of such products.

In addition to OEM, the PDQ offering includes:
